2022-2027 ACREDITATION-ADULT EDUCATION

2022-1-RO01-KA120-ADU-000110754

2024-1-RO01-KA121-ADU-000202258

2025-1-RO01-KA121-ADU-000318529

Objective 1 The development of the competences of trainers and adults, necessary to carry out activities to prevent the effects of climate change, during the implementation of project activities;

Objective 2 Increasing the motivation of seniors for the formation of digital skills for social inclusion;

Objective 3 Increasing the motivation of the organization's members and volunteers in the development and expansion of activities to increase organizational capacity

During 2024-2025, 4 participants attended Erasmus+ courses and a group of 10 adults 55+ participated in a digital and green skills training activity. The activity included training courses and a mobility to Greece in July 2025.

During the mobility in Greece

Digital & Green Skills in Cyprus – Larnaca!

During the period 7 – 11 July 2025, Alisa Roxana Pioara, a volunteer of our organization Zona Integrare Europeana, participated in the international training course “Cultural Heritage: Myths & Legends as Narrative in a Common Ground Storytelling”, held in Larnaca, Cyprus.

The "Seniors ZONE in gamification and art-therapy" project consists of a consortium of 3 organizations from EU countries. Our operational objectives are:

1. Develop of extended competencies for workers in the field of adult education by applying the principles of gamification- modern technique and method that facilitates learning at all ages.
2. Consolidation of the capacity of the 3 organizations to work at transnational level through the implementation of project activities.
3. Reducing the risk of social exclusion for seniors aged 50+, during the project implementation.

Objectives:

The project aims to promote sustainability, environmental awareness, and social inclusion by integrating creative recycling into adult education for impaired adults. The project will:

- Enhance cognitive and motor skills of impaired adults through upcycling activities.
- Train educators in sustainability-focused, inclusive teaching methods.
- Develop a digital guide to ensure long-term impact across Europe.
- Raise awareness on waste recycling and climate change.

The project aims to promote sustainability, environmental awareness, and social inclusion by integrating creative recycling into adult education for impaired adults. The project will:

- Enhance Cognitive & Motor Skills of impaired adults through upcycling activities.

Activities :

Recycling Workshops: Impaired adults and educators will transform waste into flowers, enhancing cognitive and motor skills.

Training for Educators: Sessions on integrating sustainability into adult education.

Digital Guide Creation: A comprehensive resource for educators, accessible across Europe.

Multiplier Events: Sharing project results with stakeholders, policymakers, and institutions.

Media & Online Promotion: Using social media, EPALE, and the project website for wider impact.
